

## Electronic Brief Uploading

In addition to providing the required number of paper copies of briefs, all parties (except pro se parties) are required to upload the brief in electronic format to the court's Web site as described in 11th Cir. R. 31-5 and these instructions. The electronic brief must be completely contained in a single Adobe Acrobat® PDF file (see instructions for generating the PDF file below), i.e., the cover page through and including the certificate of service shall be contained in one file. Appendices need not be included in the electronic brief. Hypertext links to cases, statutes and other reference materials available on the Internet are authorized. The certificate of service shall continue to indicate service of the brief in paper format.

To upload your brief:

- Go to this court's Web site at [www.ca11.uscourts.gov](http://www.ca11.uscourts.gov)
- Click on the link "Electronic Filing" (located on the upper right side of the page)
- Log-in

[First time users: enter your individual identification number (User ID), which is printed on the address wrapper accompanying the brief scheduling letter. Click on Log In. You will be prompted to create a password known only by you for all future uploads. The password must be a combination of 6 alpha-numeric characters, with at least one number and one letter. You will use the same User ID and password to log-in for all subsequent electronic filings in any appeal in this court. Except for court-appointed counsel, you will not be able to register as a first time user unless you have filed an Appearance of Counsel Form in the appeal to which you are uploading.]

- Select the correct **U.S. Court of Appeals** docket number
- Select the Party and Type of brief you are filing
- Click on Browse, and select the file you are sending
- Click on Submit File
- Log-out

### **Instructions for Generating the PDF Text File:**

You can get a PDF creation utility from any source of your choosing, including Adobe ([www.adobe.com](http://www.adobe.com)), [www.PDFStore.com](http://www.PDFStore.com), [www.pdf995.com](http://www.pdf995.com), or from another vendor. If you use WordPerfect v9 or later you can generate the file by selecting "Publish to PDF" from the File menu. Additionally, Adobe will perform the conversion for you on their website.

The file may not be larger than 750,000 bytes. Do not generate a PDF image file by scanning in a printed document, as image files will likely exceed the size limitation.

Please note: employees of the Court cannot convert files to PDF for you, nor can they accept e-mailed submissions and post them for you. If you have problems uploading your brief, for assistance you may e-mail EDF Support using the link at the bottom of the electronic filing page, or call the help desk at 404-335-6399.
